

IASPER NEWS - *NOUVELLES IASPER* N. 5

WHO'S WHO IN IASPER

Compiled by Rebecca Driskell and Renée Lawson

When the project of compiling this informative list of IASPER members had to be substantiated, a questionnaire was mailed to all members in order to obtain the necessary data. Some members promptly answered while others never did, therefore this first edition of Who's Who is coming out in a rather uneven and incomplete form. Those colleagues who provided the requested information are presented in full form while only the address and date of inscription into the Association of the others is given. The present issue is preliminary and with the cooperation of members we expect to complete it in the future; all members with presently incomplete curriculum vitae who wish to see themselves fully represented, are invited to provide the missing data for further publication.

NOTE: Please keep the General Secretary's office informed about desired additions or modifications for a future edition.
